

Publication and Travel Support

The Permanente Medical Group strongly supports the dissemination of research results from TPMG clinically-oriented researchers. Funds are available as a supplement to the annual educational allowance provided to all clinicians. Funds are subject to availability.

Requests for funding can be submitted here: [<https://forms.office.com/r/qk3Yt31Tpe>].

In-Person Meeting Scientific Presentations

TPMG clinicians can request **up to \$2000 per person annually** for the expenses incurred for **domestic** meetings at which **original** TPMG research is presented by abstract or lecture (one presenter per project):

Eligible Expenses

- Domestic economy air travel, hotel, and/or registration for the relevant meeting
- Abstract printing costs and AV support for posters/oral presentations

Funding is contingent upon

- The clinician's existing TPMG educational funds have been committed or expended
- Available funding from other mechanisms (e.g. grants) has been committed or expended
- The accepted abstract presentation(s) is included in the request
- The presenter provides a clear plan for subsequent manuscript publication
- Submission and approval of request is completed prior to making travel arrangements

Once approved, instructions for booking will be sent to the traveler. Expenses must be consistent with TPMG policies (e.g. economy fare, etc.). Original itemized receipts are required for all expenses and will be submitted after completion of travel.

Ineligible presentations include: Case reports, reviews, or other presentations not considered original research.

Manuscript Publication

Publication costs of **up to \$2000 per person annually** for **original research** papers submitted to peer-reviewed journals for publication (e.g. submission costs or page costs). DARE funds cannot be used to pay for open access fees, above and beyond the costs of publication.

Submit and receive approval prior to payment for manuscript publication.
Reimbursements for requests submitted after payment is not guaranteed.

Documentation of final journal acceptance for publication is required.

Acknowledgement of Funding:

Publications and presentations supported using data from studies solely or jointly funded by the Delivery Science and Applied Research (DARE) program should include the following acknowledgement: "This study was supported by The Permanente Medical Group Delivery Science Research initiative."
